IMPACT FORCE POVERTY ALLEVIATION USER STORIES

Project Title: Digital Fundraising Transformation – Impact Force Poverty Alleviation
Client: Impact Force Poverty Alleviation (NGO)
Prepared by: Cloud Ninja Team
Date:

Module 1: WEBSITE DONOR PORTAL

User story 1: Homepage for NGO Donations

As a: Prospective donor
I want to: View the NGO homepage with information about the organization and donation options
So that: I can understand the purpose of the NGO and proceed with contributing.

Acceptance Criteria:

• Homepage must display NGO logo

• Mission and vision statement must be visible

• Information about poverty alleviation programs must be shown

• "Register" button must be clearly available

• Basic contact information of NGO must be displayed

• Website must be accessible from desktop browsers

Scenario:

When the visitor opens the NGO website
Then the homepage must display organization details and Register button

---

User Story 2: Donor Registration Page

As a: Individual donor
I want to: register on the website with my personal details
So that: my information is stored for donation and future communication.

Acceptance Criteria:

• Registration form must capture Firs Name, Last name, Email, Phone Number, Address, Company, Lead Source, Preferred Campaign, Registration Date, Communication Preferences

• System must validate email format

• System must validate phone number format

• Duplicate check must be performed using email or phone

• On successful registration Salesforce must create Lead

• Confirmation message must be shown to donor

Scenario:

When the donor submits valid registration details
Lead must be created in Salesforce
And confirmation message must be displayed.

User Story 3: Donor donation Page

As a: Individual donor
I want to: To donate the money which I require to donate
So that: I have to able to enter the amount on my common interest to donate.

Acceptance Criteria:

• Check Box “Donate Now” button must be clearly available

• Once check box ticked the Lead has to be converted as account and contact.

• Duplicate check on the email with the existing contact

• Amount has to be entered the page has to redirect to the Razor page

Scenario:

When the donor ticks the check box lead will be converted
Account and contact must be created in Salesforce.

User Story 4: Donor History page

As a: Individual donor
I want to: To see the donation history if I re-login and donate money again.
So that: I have to see the previous transaction history with the date, Type the payment and amount

Acceptance Criteria:

• For recurring donor the history of transaction has to be displayed in the Page

• To contain the require document

Scenario:

When a donor re-logins the page they have to see the history

Display in the web page itself to see the previous transaction done by them.

Module: 2 MONEY DONATION PROCESS

User Story 1: Donation Amount Entry

As a: Donor
I want to: enter the amount I wish to donate
So that: I can contribute as per my preference.

Acceptance Criteria:

• Amount field must accept only numeric values

• Minimum amount must be greater than zero

• Currency must be INR

• Validation message must appear for invalid input

Scenario:

When donor enters non-numeric or zero amount
Then system must show appropriate validation error

User story 2: Razorpay Payment Integration

As a: Donor
I want to: make payment using Razorpay
So that: my transaction is secure and reliable.

Acceptance Criteria:

• System must create Razorpay order on Pay button

• Razorpay checkout must open securely

• Payment success callback must be sent to Salesforce

• Failure message must be shown for unsuccessful payment

• Razorpay Transaction ID must be stored in Salesforce

Scenario:

When payment is completed successfully
Then transaction id must be stored and status updated in Salesforce

---

User story 3: Gift Transaction Creation- Treated as Opportunity in experience cloud

As a: Finance user
I want to: have Gift Transaction created after successful payment
So that: donations are managed using NPC model.

Acceptance Criteria:

• Opportunity must be created only after payment success

• Opportunity must be linked to Contact and Household Account

• Opportunity amount must match Razorpay amount

• Status must be set to Posted

• Payment record must be created and linked to Opportunity

• Rule: One Payment = One Opportunity Transaction

Scenario:
Then Opportunity and Payment records must be created and linked

---

Module 3: INDIVIDUAL RECEIPT MANAGEMENT

User story 1: Automatic Receipt Generation

As a: Donor
I want to: receive an English receipt to my personal email
So that: I have proof of my donation.

Acceptance Criteria:

• Receipt must be generated from Opportunity Transaction

• Email must be sent to Contact email

• PDF must include Donor Name, Amount, Date, NGO details

• Admin must have option to re-send receipt

Scenario:

When Opportunity Transaction is created
Then receipt email with PDF must be sent to donor

Module 4: AGENTFORCE DONOR SUPPORT

User story 1: AI Chat Support

As a: Donor
I want to: ask questions through chat
So that: I can get instant support regarding my donations.

Acceptance Criteria:

• Agentforce widget must be available on website

• Chat must answer donation process questions

• Chat must answer receipt queries

• Chat must answer payment status queries

• Must access donor context from Salesforce.

Scenario:

When donor asks payment status in chat
Then Agentforce must fetch and show correct information

Module 5: REPORTING AND DASHBOARDS

User story 1: Donation Performance Reports

As a: NGO manager
I want to: view reports and dashboards on donation performance
So that: I can make informed decisions.

Acceptance Criteria:

• Daily donation collection report must be available

• Razorpay reconciliation report must be available

• Donor-wise summary dashboard must be available

• Opportunity Transaction status report must be available

Scenario:

When manager opens dashboard
Then donation metrics must be displayed correctly

Module 6: SLACK INTEGRATION & NOTIFICATIONS

User Story 1: Real-time Donation Notifications

As a: NGO team member
I want to: receive real-time notifications in Slack when a donation is recorded in Salesforce
So that: I can track donations instantly

Acceptance Criteria:

- Notification must be sent when a Donation (Opportunity) is created
- Message must include:
  - Donor Name
  - Donation Amount
  - Date & Time
  - Payment Status
- Notifications must be triggered automatically via Salesforce automation
- Notification should appear in the configured Slack channel

Scenario:

When a donation record is created in Salesforce
Then a notification must be sent to Slack with donation details

---

User Story 2: High-Value Donation Alert

As a: NGO manager
I want to: get alerts for high-value donations
So that: I can take immediate action

Acceptance Criteria:

- Threshold amount must be configurable
- Notification must highlight high-value donations
- Alert must include donor details and amount

Scenario:

When donation amount exceeds threshold
Then Slack must send a high-priority alert

User Story 3: Daily Summary Notification

As a: NGO manager
I want to: receive a daily donation summary
So that: I can monitor performance

Acceptance Criteria:

- Summary must be generated using Salesforce reports
- Notification must include:
  - Total donations
  - Total amount
  - Success vs failure count
- Message must be sent once per day

Scenario:

When end of day is reached
Then a summary message must be sent to Slack

User Story 4: Error & System Alerts

As a: System admin
I want to: get notified when errors occur
So that: I can fix issues quickly

Acceptance Criteria:

- Errors from Flow / Apex must trigger alerts
- Message must include:
  - Error details
  - Time
  - Record reference

Scenario:

When a system error occurs
Then Slack must receive an alert

User Story 5: New Donor Notification

As a: NGO team
I want to: be notified when a new donor is created
So that: I can engage with them

Acceptance Criteria:

- Notification must trigger on Contact creation
- Must include donor basic details
- Must be sent to a specific Slack channel

Scenario:

When a new donor is created
Then Slack must notify the team

Further changes to be noted down
